Introduction

Full-Stack Developer with demonstrated technical excellence in scalable web, mobile, and microservices systems. Combines hands-on engineering with team leadership, product ownership, stakeholder communication, and delivery discipline. Selected achievements show measurable improvements in performance, delivery, system efficiency, and real-world adoption.

Excellence & Achievement

Final Thesis: E-commerce System for Buying and Renting Used Books Sep 2023 – Jan 2025
Team Lead, Scrum Master, Front-end Developer

- Directing the team from research and architecture through implementation, testing, and deployment.
- **51 functions within three months** using Next.js, Vue.js, Java Spring Boot, PostgreSQL, Docker, AWS, VNPay, Locust, Postman, and Playwright.
- The thesis received the highest score of 9,5 from the defense committee, 10 forks and 18 stars in Github repository, help more than 10 students in HCMUT to study and do a better thesis.
- Established a standard Scrum/Agile workflow, optimized Front-end performance by 49%, and achieved 10,000 visits measured by Vercel Analytics.

Top 20 – Final Round – VPBank Technology Hackathon (Powered by AWS) Nov 2025
Team Lead, Fullstack Developer

- **Topic:** Microservice Application Design Evaluation | Link demo
- **Description:** Designed and deployed .NET and ReactJS technologies project processing 7 architecture domains with 60% efficiency improvement. Live production system with 9 containerized services, full CI/CD pipeline, and real-time monitoring stack on AWS. Link description

Joint Venture "Vietsovpetro" May 2025 – Present
Full-Stack Developer

- Developed a complete leave management system for Russian employees; deployed and tested for over 300 users.
- Improved work efficiency by delivering 110 functions and bug fixes within 2 months, demonstrating strong attention to detail. At the same time, I also applied software to record user actions and AI agents.

First Prize – VBI-VNU Hackathon Dec 2022
Project: Partie – Blockchain Freelancer Marketplace. Link Github
Role: Team Leader, Front-end Developer, Designer

Honor Ceremony Recognition May 2024
Outstanding academic and technological innovation – HCMUT

Top Rank Graduate Apr 2025
Issued by Rector of Ho Chi Minh City University of Technology

Official Commendation for Outstanding Graduate Apr 2025
Issued by the Alumni Representative Board of the Faculty of Engineering and Computer Science

Leadership

Eye Design Corp PTY LTD Jan 2024 – May 2025
Full-Stack Developer – Lead, contributor of the key company product project / Team size: 3

- Led development of a SaaS PWA beauty booking and management platform for salons and spas in Australia.
- Implemented comprehensive Postman test suites, end-to-end testing, and CI/CD pipelines.
- Collaborated in a 3-member high-impact engineering team.

Nccplus Vietnam JSC Sep 2021 – Aug 2022

Position: Supervisor & Mobile Developer / Team size: 5

- **Project:** The Vault Box
- **Description:** Vaultbox is a secure digital vault for financial and legacy planning, enabling users to store, manage, and share important documents with end-to-end encryption. It leverages blockchain and FinTech solutions to ensure privacy, security, and seamless access control.
- **Responsibilities:**
  - Main representative of the team in reporting work and demos in English with clients from Australia and Singapore.
  - Designed and implemented a user-friendly mobile app with React Native and intuitive UX/UI using Figma, integrated APIs and worked with micro-frontend architecture.
  - Optimized performance & scalability for handling large volumes of sensitive data.
  - At the end of every sprint, the team received positive feedback from stakeholders.

Mentorship & Advancing Women in Technology

"Surviving the First Year of Your Career" — Free Mentorship Program *Aug 2026 – Oct 2026*
Created a structured, no-cost mentorship program for final-year students and recent graduates entering the technology workforce. The program is designed to help early-career talent build sustainable careers through practical support in personal career planning, workplace communication, emotional resilience, and navigating feedback and deadlines.

- Limited the first cohort to **two mentees (1 men + 1 women)** to provide focused, individual guidance through weekly sessions.
- Developed a practical career map for each mentee, connecting short-term actions with long-term professional goals.
- Taught workplace communication skills, including how to report progress and ask effective questions of a Tech Lead or manager.
- Focused on mindset, emotional intelligence, and burnout prevention rather than duplicating technical training, making the program complementary to university and self-directed learning.
- Built an approach that can be repeated for future cohorts and shared with other technology professionals who want to support early-career talent, including women entering and progressing in technology.

Mentor Software Engineering *Aug 2022 – Aug 2026*
Cybersoft Academy / Amount of mentees: 10+ students (include women) and people changing careers
Mentored in Front-end and Fullstack class, providing guidance on modern technical skills, find a good job, career development, and professional growth.

Livestream: Job-Hunting Roadmap for HCMUT Students *11 Aug*
Hosted a livestream for HCMUT CSE students, sharing a complete job-hunting plan from a 9.5-scored thesis to a job offer.

- Showed how to turn course projects and theses into strong CV highlights.
- Presented a position and salary priority matrix (Front-end, Java, Fullstack, React Native), a 6-month roadmap, and a Monday-to-Friday "golden week" plan.
- Taught how to evaluate company reviews by defining personal acceptable and unacceptable conditions.

Social Contribution

Founder and Organizer — Làng Tre Volunteer Club *2026 – Present*
Founded a free volunteer community that organizes visits to Làng Tre, Đồng Nai, where friends and family spend time with children and elderly residents, with no teaching experience required.

- Organized volunteer trips where participants study alongside children (reading, math, English vocabulary, sharing dreams and hopes) and listen to the elderly share their life stories.
- Designed an emotion-support game for children aged 7–8 (groups of 4–6 children per volunteer), focused on listening, encouragement, and teamwork.
- Kept participation completely free, lowering barriers so anyone willing to be present and patient can contribute.

Founder and Organizer — All Blue Ocean Club *2026 – Present*
Founded a free outdoor-excursion and sports community in Vũng Tàu connecting local residents, international visitors, students, families, digital nomads, and LGBTQ+ participants. Each trip is designed with a clear purpose: to build friendship, health, and cross-cultural understanding, and to give Vietnamese youth access to global perspectives and English practice in a welcoming environment.

- Organized recurring day trips and sports activities (swimming, beach, hiking, walking, team-building), keeping participation free or low-cost (pool activities capped at approximately **60,000 VND**).
- Planned and led a bilingual (English–Vietnamese) excursion to Can Gio Monkey Island for **10–15 participants** from Russian, Holand, England, German, and other countries, with a structured itinerary: cultural exchange, wildlife-safety briefing, guided mangrove tour, and a mentor-led career-sharing session.
- Used shared outdoor experiences as a bridge between Vietnamese and international participants, creating lasting connections beyond the workplace.
- Encouraged members to create and lead their own activities, building a scalable, member-powered model rather than a one-person event.
