Introduction

Full-Stack Developer with years of experience in enterprise web development, specializing in ReactJS, MySQL, and microservices-based architectures. Proven track record of developing large-scale SaaS platforms, booking systems, and financial applications. Passionate about clean architecture, scalable solutions, and high-performance web applications.

Skills & Certifications

Languages: TOEIC 710
Programming Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Java, C++, Python, PHP
Front-end: ReactJS, React Native, Next.js, Vue.js, Ant Design, MUI, TailwindCSS, Bootstrap, SCSS, i18next, Vite, PNPM, ESLint, Prettier
State Management & Data: Redux, Redux Toolkit, Zustand, React Query, Axios
Back-end: Spring Boot, Node.js, Laravel (Microservices), .NET, SMTP, Spire.Doc, RESTful API
Databases: MySQL, PostgreSQL, SQL Server, DBeaver, TablePlus
DevOps: AWS (EC2, S3), Docker, Bitbucket CI/CD, IIS, Jenkins
Testing: Postman, Locust, Playwright
Certifications:

- Software Development with Scrum – Axon Active (2024)
- Professional Front-end Developer – Cybersoft Academy (2020)
- Professional NodeJS Developer – Cybersoft Academy (2022)
- Spring Framework & Design Patterns – VNU-HCM (2024)
- 4Cs Skills – UNESCO-CEP Talent Generation (2024)

Work Experience

Joint Venture "Vietsovpetro" May 2025 – Present
Full-Stack Developer

- Developed a complete leave management system for Russian employees; deployed and tested for over 300 users. Write requirement document, designed frontend UI and backend database architecture. With these technologies:
  - Back-end: .NET, Postman, SMTP, Spire.Doc
  - Front-end: ReactJS, Zustand, Ant Design, ESLint, Vite, PostHog, i18next
  - Database: SQL Server, Views, Stored Procedures
  - Deployment: IIS, HTTPS, Jenkins

Eye Design Corp PTY LTD Jan 2024 – May 2025
Full-Stack Developer – Lead, contributor of the key company product project joined only one main Product project.

- Led development of a SaaS PWA beauty booking and management platform for salons and spas in Australia.
- Implemented comprehensive Postman test suites, end-to-end testing, and CI/CD pipelines.

- Collaborated in a 3-member high-impact engineering team.
- Technologies:
  - Back-end: Laravel (microservices), Docker, Bitbucket CI/CD, Herd
  - Front-end: ReactJS, TypeScript, Redux Persist, Ant Design, MUI, Vite, PNPM
  - Database: MySQL, Views, Transactions, TablePlus

Nccplus Vietnam JSC Sep 2021 – Aug 2022
Junior Front-end & Mobile Developer

- **Project: Rent Then Buy** Sep 2021 – Feb 2022
  Position: Front-end Developer / Team size: 5
  - **Description:** Worked on a system that enables admins to create rental and resale contracts for trailers, send them to customers for completion, and calculate both the annual rental cost and the buyout amount. The platform integrates Stripe for automatic recurring payments.
  - **Responsibilities:**
    * Designed and developed high-quality, high-performance web applications, collaborating with Product Owner, Business Analyst of Australian partner and team members.
    * Developed and integrated features against RESTful APIs to ensure seamless functionality.
    * Worked on Agile Scrum Model and managed documentation in Jira.
  - **Achievement:**
    * Launched the web app in the Australian market.
    * At the end of every sprint, the team received positive feedback from stakeholders.
  - **Technology:** ReactJS, React Hook, TypeScript, MUI, React Query, Axios, AWS S3, i18next
- **Project: The Vault Box** Apr 2022 – Aug 2022
  Position: Mobile Developer with React Native / Team size: 5
  - **Description:** Vaultbox is a secure digital vault for financial and legacy planning, enabling users to store, manage, and share important documents with end-to-end encryption. It leverages blockchain and FinTech solutions to ensure privacy, security, and seamless access control.
  - **Responsibilities:**
    * Main representative of the team in reporting work and demos in English with clients from Australia and Singapore.
    * Designed and implemented a user-friendly mobile app with React Native and intuitive UX/UI using Figma, integrated APIs and worked with micro-frontend architecture.
    * Developed an intuitive and responsive UI for a seamless user experience.
    * Integrated authentication & encryption features to enhance security.
    * Optimized performance & scalability for handling large volumes of sensitive data.
    * Worked on Agile Scrum Model.
  - **Technology:** React Native, Redux Toolkit, TypeScript, MUI, Axios, AWS S3, 2FA, i18next, DBeaver

Au Lac Technology Applications And Media Services Company Limited Oct 2020 – Sep 2021
Fresher Front-end Developer - Joined one main project.

- **Project: VCPMC – Music Copyright System**
  Position: Front-end Developer / Team size: 8
  - **Description:** A system of contractual management of contracts between authors and operators, protecting copyright works and calculating revenue according to timelines.
  - **Responsibilities:**
    * Developed and deployed websites from concept to production, ensuring seamless functionality.

    * Designed and built key modules, including Playlist, Record Gallery, and Business Contract.
    * Maintained, updated, and optimized source code for performance and scalability.
    * Integrated RESTful APIs and implemented robust form validation.
    * Managed module translations and implemented role-based access control for user permissions.
  - **Technology:** ReactJS, SCSS, Bootstrap 4, SourceTree, React Router DOM, React Beautiful DnD, Axios, Redux Toolkit, Ant Design, TypeScript, Webpack, CI/CD, HTML5, CSS3

Personal Project

Final Thesis: E-commerce System for Buying and Renting Used Books Sep 2023 – Jan 2025

- Roles: Team Lead, Scrum Master, Front-end Developer.
- Researched and applied various new technologies such as PNPM, NextJs, VueJs, Java Spring Boot, Docker, PostgreSQL, deploy and setup CI/CI in AWS with t2.micro. Implement payment with VNPay, unit test with Postman, performance testing with Locust, automation test with Playwright.
- The thesis received the highest score of 9,5 from the defense committee, 10 forks and 18 stars in Github repository.
- Established a standard Scrum/Agile workflow, completed 51 functions within 3 months, optimized Front-end performance by 49%, and achieved 10,000 visits measured by Vercel Analytics.

Bookshop Microservice System Jan 2025 – now

- Microservices Architecture: Built a distributed bookshop system with Spring Boot microservices including authentication, product management, and third-party integration services, utilizing Eureka Server for service discovery and Spring Cloud Gateway for API routing.
- Advanced Integration: Implemented Kafka for asynchronous messaging, RabbitMQ for logging with ELK stack (Elasticsearch, Logback, Kibana), JWT authentication, and REST API communication between services using WebClient.

Education

Ho Chi Minh City University of Technology Jun 2020 – Jan 2025
Bachelor's Degree in Computer Science
GPA: 7.22 | Data Structures & Algorithms: 8.6

FPT Arena Multimedia Academy Aug 2017 – Aug 2019
Bachelor's Degree in Multimedia
GPA: 7.3 | Relevant Coursework: UX/UI Design

Honors

Top Rank Graduate Apr 2025
Issued by Rector of Ho Chi Minh City University of Technology

Top 20 - Final Round – VPBank Technology Hackathon (Powered by AWS) Nov 2025
Team: Super Microservice | Topic: Microservice Application Design Evaluation
Description: Designed and deployed .NET and ReactJS technologies project processing 7 architecture domains with 60% efficiency improvement. Live production system with 9 containerized services, full CI/CD pipeline, and real-time monitoring stack on AWS

First Prize – VBI-VNU Hackathon Dec 2022
Project: Partie – Blockchain Freelancer Marketplace
Role: Team Leader, Front-end Developer, Designer

Honor Ceremony Recognition May 2024
Outstanding academic and technological innovation – HCMUT
